Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
“I don’t know how to dispose of this waste safely.” “Is this recyclable or hazardous?” “Where can I find a nearby collection center?”	“I want to be environmentally responsible but the rules are confusing.” “I hope this app gives me clear, trustworthy guidance.” “It would be great if I could track my habits and improve

		PERSONA NAME <i>(Role / User Type)</i>		
• DOES • Scans or types waste items into the app. Checks the map for nearby collection centers. Reviews their dashboard analytics to see recycling progress •			• FEELS • Confused or anxious when unsure about disposal. Relieved when the app provides clear instructions. Motivated and proud when they see their recycling rate improve •
